I. Summary

The purpose of the Risk and Compliance Committee (the “Committee”) of the Board of Directors (the “Board”) of Onity Group Inc. (“Onity” or the “Company”) is to assist the Board in fulfilling its oversight responsibility with respect to the Company’s risk management, compliance management and information security/privacy programs. To that end, the Committee shall be responsible for ensuring that management has (1) identified the key risks that could affect the ability of the Company to achieve its strategies and preserve its assets, (2) established an Enterprise Risk Management Program to identify, measure, monitor and report on the risks the Company faces, and (3) established a Compliance Risk Management Program that seeks to ensure the Company’s compliance with applicable laws, rules and regulations governing its consumer-oriented businesses (including applicable state and Federal consumer financial protection laws and regulations). In addition, the Committee shall perform such other specific duties and responsibilities as the Board shall from time to time prescribe, in all cases subject to any restrictions set forth in the Bylaws of the Company or by applicable law.

It is not the responsibility of the Committee to conduct risk or compliance assessments or manage risk or compliance; rather, the Committee is responsible for reviewing management’s processes for assessing and managing risk and compliance, and management’s implementation thereof, and for providing guidance to management with respect thereto.

The Committee shall also assist management in setting the tone from the top and in developing a strong risk and compliance culture at all levels in the Company that results in appropriate consideration of risk and compliance in key strategic and business decisions.
